Public Heavy Buyer Because of Discouraging Government Reports Concerning Crops-Authorities Say United States and Canada Will Have No Grain for Export.

Chicago, May 13.-Running wild, wheat sold to-day with the dollar sign before it for the first time since the "black rust" scare of 1904. While the price was 18 cents under the top of three years ago the market presented the most panicky appearance ever recorded in the leading grain market of the world.

Even the frenzy of the Leiter deal was surpassed in the wideness of price fluctuation and general excitement. The jump was like a bolt from a clear sky, while in corner markets traders always know what to expect.

The high price for the day, \$1.03, compared with \$1.24 reached in the "black rust" year, \$1.85 in the Leiter deal of 1898. \$2 in the deal of "Old Hutch" in 1888, and

Still Frosty in Manitoba,

A cause contributing to the advance is the fact that Providence has picked out this season for a late spring in Manitoba, where thousands of acres which ought to be seeded down and under way are still rockbound with frost. As if to make the bull argument even more convincing, the reports from Germany, Austria, and Russia all point to a greatly decreased acreage.

"It is safe to say that present condi-tions indicate the United States and Cana-da will be fortunate if they have enough wheat for bread and seed. They cannot be counted on to furnish much, if any, wheat for export," said William H. Bart-lett, of Bartlett, Frazier & Carrington, after trading hours to-day

Other big fellows are said to have found themselves in a similar fix. They were victims of a sudden rush of the speculative public toward the wheat market, drawn by the pessimistic tone of the acreage reports issued by Uncle Sant and the damage caused by the green bug in the Southwest. It was generally felt, however, at the close of the day, that

#### PRESIDENT MAY AID LENNON. Cannot, However, Remove Desertion

Charge Against John L.'s Nephew. The Judge Advocate General of the War Department yesterday sent to the President a memorandum of the case of John L. Lennon, private in the army nephew of John L. Sullivan.

This is the result of Mr. Sullivan's call on the President last week to intercede for his nephew, who was convicted by court-martial at Camp Thomas, Cuba, early in the year of desertion and sentenced to dishonorable dismissal, for feiture of all pay and allowances, and imprisonment for one year.

It is the understanding that the Pres ident is disposed to commute the term of imprisonment that remains and set Lennon at liberty. He has not the power to remove the charge of desertion or set aside the verdict of the court-martial, which has been executed. The charge of desertion which Mr. Sullivan was anxious to remove can only wiped out by an act of Congress correcting the military record.
